Lebogang Nkosi

Android & Flutter Developer

Profile

Phone: +27 67 008 3283

Email: nkosilebogang95@gmail.com

Location: Benoni, Gauteng, South Africa

Website: https://lbnkosi.co.za

Other: https://seamlesspay.io

GitHub: https://github.com/Lebogang95

LinkedIn: https://linkedin.com/ln/lebogang -nkosi-383023149

Core Skills

Android Sdk
Java Kotlin - Skilled
Flutter - Skilled
Web Api Integration

Extensive use of the
Android Architecture components
 - View Binding
 - Data Binding Library
 - Handling Lifecycles
 - LiveData
 - ViewModels

RxJava & RxAndroid
Dagger2
Retrofit
Volley
Butterknife (Stopped using)

Good understanding
of clean architecture to seperate
application layers
 - Business Layer
 - Data Layer
 - Presentation Layer

Good understanding of
design patterns
 - MVVM
 - MVP
 - MVC

CI/CD with Jenkings & App center
Sprint/Project/Task Management
using Jira & Confluence

Other

Seamless Pay project which you can checkout by visiting
https://seamlesspay.io

English - Native

Determined developer with a keen sense to solve real world problems and help clients achieve their goals

Work Experience

Intermediate Android Developer - bidorbuy.co.za
June 2019 - Present
- Manage the full technical life-cycle of Android applications during each development phase
- Design, build and maintain high performance, reusable and reliable code
- Unit-test code for robustness, including edge cases, usability and general reliability

Junior Android Developer - Standard Bank
January 2019 - May 2019
- Integrate the Masterpass SDK into the Sorted application
- Implement Web Apis from the Beyond Payments team into the sorted application
- Designing technical solutions and providing suggestions to clients
- Create the app architecture and reference implementations for other developers for new concepts like Dagger2, RxJava

Junior Android Developer - Applord
January 2018 - December 2018
- Maintain and improve code quality for client applications
- Create robust applications for clients
- Up skill myself to join the Sorted team at Standard Bank SA
- Interacted closely with clients and created technical solutions

Founder Seamless Pay

Website - https://seamlesspay.io
Seamless Pay is an Android app which allows individuals and businesses to accept tap to pay/contactless credit card payments using NFC enabled smartphones without having to buy expensive credit card machines. I also developed a library which e-commerce companies can use to improve their checkout flow by allowing their customers to tap their credit card on the back of their smartphone to make online payments. Visit the website for more information.

Other projects can be found on my GitHub profile
https://github.com/Lebogang95

Upskilling

iOS Fevelopment
I am currently upskilling myself by learning iOS development. My main goal for 2020 is to be skilled in both iOS and Android development.

Education

University of South Africa
BSc Computer Science - 2019 to Present

RCM School of Excellence
January 2018 - December 2018 (1 Year Course)
Received a bursary to study a diploma in mobile applications and game development (Unity). Received an average of 80%

Udemy
Courses currently enrolled
 - Discrete Mathematics
 - Flutter & Dart
 - Computer Science and programming fundementals
